WHY SPECIALISTS WIN

- AI **only** cites **specific** answers and information.
- AI is sending clients to **specialists**.
- A specialist means **you** serve a **niche**.
- Your future clients are searching for *specific answers to their specific problems*.

If you are not findable for anything.
You are *forgettable for everything*.

Generalists drown. *Specialists get found.*

67^{0%}

of home buyers now use AI as their *primary research tool*, up from just 17% eighteen months ago.

91^{0%}

of U.S. agents are *effectively invisible* in the AI search engines their buyers now use first.

4.2_x

higher close rate from AI-sourced leads: 70% close within 30 days vs 2.4% on Zillow Premier Agent, in about half the time.

33.8^{0%}

Zillow's share of agent-discovery traffic, *down from 41.2%* year over year, its first decline since 2024 as the loss moves to AI.

WHAT MOST AGENTS GET WRONG

3 things are killing your *AI*
visibility.

01

Inconsistent name & info across platforms.

AI triangulates your identity from 10+ sources. One mismatch and it loses confidence in you, and skips you.

02

Generic bio language.

“Passionate, dedicated, results-driven” means nothing to AI. It needs **specific, structured claims** it can actually quote and cite.

03

No Q&A content on any profiles.

The single most-missed signal in every visibility audit we run. Add keyword-rich Q&As wherever a profile allows it, it's free, takes 20 minutes, and almost no one has done it.

THE ALWAYS-ON AGENT SYSTEM

The 5-Step *GEO Framework*.

The exact system our agents are running to become the #1 AI recommendation in their zip code.

01

Claim Your Entity

Make sure AI knows who you are. Lock down a consistent name, role, market, and specialty everywhere AI looks: Google Business Profile, your site, your socials, your brokerage page. AI builds a profile of you from these. Conflicting or thin info = invisible.

The *exact words* AI needs to know about you.

THE TEMPLATE

"[Full Name], REALTOR®, is a licensed real estate agent in [State] serving [City/Area]. [He/She/They] work with [buyer or seller type] looking for [need or price range]."

REAL EXAMPLE

"Sarah Chen, REALTOR®, is a licensed real estate agent in Minnesota serving Plymouth and the northwest suburbs. She works with first-time buyers searching for homes under \$450K."

Copy this exact phrase to your GBP description, website bio, and all social profiles. **Verbatim.**
Everywhere.

02

Feed the Signals

This changed. ChatGPT now integrates directly with Zillow and Realtor.com, your Zillow review count and recency are live signals feeding AI recommendations right now. We adjusted how we teach this.

USED TO SAY

Ask for Google reviews first

NOW WE SAY

Ask for Zillow *and* Google reviews

GBP still has one setting most agents miss: the **Questions & Answers section**. Add 5–8 keyword-rich Q&As. Free. Takes 20 minutes. Almost no one has done it.

And of course, *never stop creating GEO-optimized content.*

03

Answer the Questions

Buyers and sellers ask AI in full sentences. Create content that matches exactly how they ask: "best agent for X in [city]", "who should I call to sell my lake home." Answer those questions in plain language and AI starts quoting you.

04

Build Authority

AI recommends sources it trusts. Get cited on the local pages, directories, and publications AI already reads. A handful of the right mentions outranks a hundred of the wrong ones.

05

Compound Daily

The 30-second daily action that compounds into total AI authority over a season. Small, consistent signals beat one big push. We'll give you the exact daily move.

Five steps. *One outcome.*

- 1 Claim your entity
- 2 Feed the signals
- 3 Answer the questions
- 4 Build authority
- 5 Compound daily

Run all five and AI stops skipping you. It starts naming you.

RUNNING IT RIGHT NOW

Shout out to *Randa* and *Wes*.

Two Pemberton agents running this exact framework right now. Here's Randa, getting picked by ChatGPT in the wild:

ChatGPT picks Randa first in Crosslake, MN

And again across the Brainerd Lakes Area

Her message: a \$1.3M buyer found her through ChatGPT

Five places AI *looks for you*.

- C** **Claim** · your positioning statement, the exact words AI repeats about you
- I** **Index** · your Zillow profile, a live signal feeding ChatGPT
- T** **Trust** · your Realtor.com profile, the cross-check on your credibility
- E** **Entity** · your Google Business Profile, the most-trusted entity source
- D** **Domain** · your personal landing page, the one source you actually own

Let's run an *experiment*.

Your *positioning statement*.

AI doesn't guess who you are, it repeats the description it finds most often. One sharp, specific statement hands AI the exact words to cite. Stay vague or inconsistent and it skips you.

MOVE 1 · RAISE YOUR SCORE

Write one line, *[Name], [role] in [city/area], specializing in [client type / price band]*, and paste it **verbatim** into every bio: GBP, Zillow, Realtor.com, your site, your socials.

MOVE 2 · RAISE YOUR SCORE

Lead with a niche, never “full-service.” AI recommends specialists. **“Plymouth first-time-buyer specialist”** gets named; “experienced agent serving the metro” gets ignored.

A BRAND, DEFINED

WEBSTER'S

brand (n.) a public image, **reputation, or identity** conceived of as something to be marketed or promoted.

JEFF BEZOS

"Your brand is what other people say about you **when you're not in the room.**"

MY DEFINITION

A brand is the **gut-level answer** in someone's head the moment your name comes up.

LET'S RUN AN EXPERIMENT

You need three things.

BE SPECIFIC · YOUR POSITIONING SENTENCE

I help *[person]* achieve *[outcome]* without *[the dread]*. Unlike the common approach, my *[named process]* means they finally *[the dream outcome]*.

EXAMPLE

I help **empty-nesters** sell the family home for top dollar without the chaos of moving twice. Unlike agents who just list and wait, my **Downsize Without the Dread System** means they finally land in the right next place, stress-free.

You can't be recommended for everything. You get recommended for *one thing*.

Your *Zillow* profile.

ChatGPT now pulls straight from Zillow. Your review count, recency, and sold data are **live inputs** to its buyer and seller recommendations. A stale Zillow profile is invisible where millions start.

MOVE 1 · RAISE YOUR SCORE

Drive reviews on volume *and* recency, ask every client for a Zillow review **within 48 hours of closing**. AI weights recent reviews. Keep a steady drip, not one big blast.

MOVE 2 · RAISE YOUR SCORE

Fill **every field**, past sales, price ranges, areas, specialties, and drop your positioning statement into the About verbatim. AI reads the structured fields, not just the stars.

Your *Realtor.com* profile.

Realtor.com is the second portal AI cross-checks for credibility and recent activity. Strong on Zillow but missing here reads as thin and unverified, recommendation engines **triangulate across sources**.

MOVE 1 · RAISE YOUR SCORE

Claim and **fully complete** it, photo, bio (positioning statement verbatim), service areas, recent sales, reviews. Match name, market, and specialty to your other profiles exactly.

MOVE 2 · RAISE YOUR SCORE

Keep recent solds flowing and request reviews here too. AI favors agents with **verifiable activity across multiple portals**, not just one.

Your *Google Business Profile*.

GBP is the most-trusted entity source for AI and Google's AI Overviews, where AI confirms you're a real, active, local pro. Most agents leave it half-built. **That's the opening.**

MOVE 1 · RAISE YOUR SCORE

Add **5–8 keyword-rich Q&As**, the move almost no one makes. Answer the real questions people type: "best agent for first-time buyers in Plymouth?" Free, 20 minutes.

MOVE 2 · RAISE YOUR SCORE

Post weekly and keep reviews fresh, with text and your service keywords. **Recency plus keyword-rich language** is exactly what AI extracts and cites.

Your *personal landing page*.

Every profile so far lives on a platform you don't own. Your page is the one source AI can crawl, quote, and link to as **the authority on you**, structured exactly how AI wants it.

MOVE 1 · RAISE YOUR SCORE

Put your positioning statement, service areas, niches, and recent results on **one clean page in plain, readable text**, not buried in images. Mirror the exact language from your profiles.

MOVE 2 · RAISE YOUR SCORE

Add an **FAQ** answering what buyers and sellers ask AI, plus **schema markup** (RealEstateAgent + FAQ). Link to it from every profile so AI connects every signal back to your page.

WHERE YOU GO FROM HERE

You now know *more about AI visibility* than 99% of agents in your market.

You can take these five steps and run them yourself. Seriously, everything we taught today works. Screenshot the slides and go do it.

WHY NOW

First mover owns the AI answer. *That window is open right now.*

In 12 months, every agent in your market will be doing this. Today, almost none are. The agents who claim their zip code in AI now will own it for years.

Think about where you started. You didn't get into real estate to close transactions. You got in to work with people. To be the person someone calls when one of the biggest moments of their life is on the line.

And somewhere along the way, the pressure crept in. Be everywhere. Answer everyone. Be every agent's answer.

So here's what I want you to walk out of here knowing.

That pressure is *the exact thing holding you back.*

◀ Niching down doesn't *cost you people*. ▶

It's the only thing that brings *the right ones to you.*
